UTI Stat

UTI-Stat™ with Proantinox™ is a natural urinary tract cleansing complex containing a proprietary blend of concentrated Cranberry Proanthocyanidins, Ascorbic Acid, D-Mannose, FOS and Bromelain - to inhibit adhesion of infection causing E-coli bacteria to urinary tract walls, increase urinary acidity to create a less tolerable environment for E. Coli. UTI-Stat™ has been shown effective in reducing symptomatic UTIs, including urgency and frequency of urination, when used in conjunction with hydration and a hygiene program. UTI-Stat helps to support urinary tract health and prevent recurrence of infection. **Each one ounce (30 ml) serving of UTI-Stat™ with Proantinox™ provides as much cranberry proanthocyanidins as approximately five 450 mg cranberry tablets (equivalent to 16 eight oz glasses of cranberry juice cocktail).**

ProStat AWC

Each 30ml Serving of ProStat AWC Contains:

- 17 grams of hydrolyzed complete protein to reduce protein energy/calorie malnutrition, build muscle, repair tissue, fight infections and reduce overall morbidity/mortality
- **Arginine** -The physiological demands of repair and recovery from wounds, burns, sepsis and trauma (including surgical trauma) often require greater amounts of L-arginine than can be synthesized by the body.
- **Citrulline**-Citrulline supplementation is an efficient alternative to oral administration of Arginine in raising its plasma levels and modulating Nitric Oxide production. A non-standard amino acid found in watermelon.
- **Cystine**- Cystine controls and promotes positive nitrogen balance for minimizing muscle breakdown and rebuilding lean body mass (LBM).
- **Absorbic Acid (Vitamin C)** Vitamin C is essential for wound healing and for the repair and maintenance of cartilage, bones, and teeth. Vitamin C deficiency can lead to a decreased wound-healing rate. The body does not manufacture vitamin C on its own, nor does it store it.
- **Zinc**-Zinc has been shown to be beneficial to wound healing and zinc deficiency has been associated with delayed wound healing

253601 30oz 4/CS

Fiber Stat

- **15gr Fiber per 30ml serving**
- Natural therapeutic bowel management
- Assists in meeting the RDA requirements for fiber
- Ideal for fluid restricted residents
- Supports intestinal health
- Helps reduce or eliminate harsh bowel medications
- Can be added to any food or beverage
- Can be administered via feeding tube
No mixing or dissolving required
