- 1 time daily

Suggested Use:

Prevention of AAD & C. diff. Residents/Patients who are ordered a broad spectrum antibiotic should take the recommended dose at the start of antibiotic therapy and continue taking at least 2 weeks after completing antibiotics. Residents/patients who are not currently on antibiotics but are at risk for AAD & C. diff should take the recommended dose for 30 days. CAUTION: Diff-Stat should be taken 1 hour before or 2 hours after antifungal medications.
